

MYLAR - Top 100 DWP\$ Genomic Sire

566HO1325 MYLAR offers so much of what today's dairy producer desires: negative stature and outstanding wellness traits. His \$967 DWP\$ ranks him within the Top 100 DWP\$ Genomic sires of the breed. This A2A2 sire also has great calf wellness traits as well as solid health traits. He is also 6.5% Calving Ease. Take note of his 453612 aAa.

MYLAR is a Moola out of a GP-81 Modesty. The next 11 maternal dams are all VG or EX, all DOM and many are GMD.
