

NIGEL-PP Listed as Top Polled Jersey Pick in *Polled Place*

In the Spring/Summer 2020 edition of *Polled Place*, dairy producer Matt Goers shared some of his Polled sire picks from the April 2020 Sire Summary.

Highlighting his list is 566JE109 NIGEL-PP. Here's what Matt said about this exciting Polled Jersey Genomic sire:

"Wetumpka Listowel Nigel PP is a son of the current #1 bull, Hillview Listowel P, and is actually the #1 genomic Jersey bull himself on the GJPI list right now. He also leads the way for genomic net merit, cheese merit and fluid merit as well as #2 for DPR and productive life. Use this bull to make productive commercial cattle for your future. He's also A2A2 and combines some of the great Polled herds in his pedigree with Wetumpka and Dutch Hollow bloodlines. With two EX-92 point dams in his pedigree, and five more EX dams in the first nine generations, you can be assured the type is there too. He's available now from International Protein Sires!"

Thanks, Matt, for the mention of NIGEL-PP.
