

Your Outcross Solution

The challenge of finding an outcross sire continues within the Holstein breed. IPS has your solution with 566HO1287 BLUESKY. With many Expected Future Inbreeding (EFI)'s climbing over 9%, BLUESKY continues to have one of the lowest EFI's in the breed today with 6.0%. Beyond his EFI, BLUESKY also has excellent wellness traits with an outstanding \$1025 DWP\$ and \$64 CW\$. BLUESKY is also +3.2 LIV and 7% Calving Ease.

BLUESKY is an Alco out of a GP-84 VG-MS Sudan who is backed by five generations of VG dams.

You will find BLUESKY's complete sire summary information at: <https://ipssires.com/bulls/holstein-genomic-sires/details/89/566HO1287-MA-JESTICMANOR-BLUESKY>. For more information or to order semen, contact IPS at contact@ipssires.com or 608-524-8086.
