

## #1 Milk R&W Genomic Sire

If there's a Red & White Genomic sire that can infuse a whole bunch of Milk in one generation, it is 566HO1280 GEORGE-RED. After the April 2020 Sire Summary, GEORGE-RED is the #1 Milk R&W Genomic sire with +1669 Milk. This is the second consecutive sire summary in which GEORGE-RED is the #1 Milk R&W Genomic sire and the second consecutive year he has ranked among the top 3 R&W Genomic Milk sires. GEORGE-RED is a solid +35 Fat and +48 Protein. Still further, GEORGE-RED is +1.54 Type and +1.00 UDC; unique with this level of production.

GEORGE-RED is an Advice out of a GP-81 Dresser. The next six dams are VG or EX and traces back to the Lead Mae "EX-95" 3E GMD, DOM cow.

You will also want to check out GEORGE-RED's solid linear. To do so, check out his complete sire summary at <https://ipssires.com/bulls/holstein-genomic-sires/details/87/566HO1280-KULPDALE-GEORGERED>. Semen is available.
