

#2 Milk Genomic R&W Sire

We're impressed with 566HO1280 GEORGE-RED's December 2019 Sire Summary. He is now over a ton of Milk at +2018 Milk. He also has solid Fat (+53F) and Protein (+61P). Along with this tremendous Milk, GEORGE-RED is also +2.27 Type and +1.79 UDC.

GEORGE-RED is an Advice out of a GP-81 Dresser. The next six dams are VG or EX and traces back to the Lead Mae "EX-95" 3E GMD, DOM cow.

Here's outstanding production and solid Type ... with Red & White. Please contact IPS today at 800-542-7593 or contact@ipssires.com to place an order for GEORGE-RED semen.
