

REDLIGHT-RED: Still #1 UDC R&W Genomic Sire

It's the fifth sire summary running that 566HO1312 REDLIGHT-RED has been either the #1 or #2 UDC R&W Genomic sire. Currently, he is the #1 UDC R&W Genomic sire with +2.92 UDC. With the December 2020 Sire Summary, REDLIGHT-RED is also the #5 Type R&W Genomic Sire with +3.03 Type. He is also one of only two genomic sires that is at least +3.00 Type and at least +1.0 DPR.

Early REDLIGHT-RED calves are on the ground and their owners are impressed with how long, stretchy and stylish they are. Based on this, we expect usage to reach a second peak.

REDLIGHT-RED is a Unstopabull-Red out of a Doorman that is now VG-88. This is an extremely deep cow family that includes the highly recognizable R&W names of Redrose-Red and Blackrose-Red, perennial show ring winners.
